

Exciting new features are coming to online and mobile banking mid October!

Your Guardian online banking and mobile app will soon have a fresh look and new features so you can quickly and conveniently accomplish your digital banking goals. Here's a peek at what you can expect with your upgraded digital banking experience:

Experience Upgraded Convenience

Enjoy a sleek, new look when viewing your accounts, with easy navigation through transaction and account details. Simply swipe through account cards to view quick action buttons and access your desired task, easily reorder accounts for greater convenience, and hide or unhide accounts at any time.

Link External Accounts

Link your external accounts to easily manage your money in one place. After a few small deposits to verify the external account, you will be able to easily transfer money and make loan payments across financial institutions.

Advanced Alert Controls

A new list of Alert options is available to take your account and transaction management up a notch. Automated Alerts can be received via email or SMS text to keep you aware of your account activity at all times.

Enhanced Security Features

Keeping your personal and account information protected is more important than ever before. Knowing that, we have enhanced the security of your account with Multi Factor Authentication and BioMetric facial recognition options.

Financial Planning Simplified

Understanding how and where you spend money is an important element of managing it. With new, easy-to-use financial planning tools you can carefully track your spending habits and set personal savings goals, helping you take charge of your money and your future.

Don't worry, you will still have access to these great features and more!

-  Bill Pay
-  Check Deposit
-  Skip Eligible Loan Payments
-  Member-to-Member Transfers
-  Credit Score Monitoring
-  Friends & Family Access
